Metal Cleaners for Surfaces with No Food Contact General Nonprocessing Area Product

This product is acceptable as a metal cleaner or polish on surfaces where there is no food contact, provided that all odours associated with the product have dissipated before food or packaging are re-exposed to the area. All food products and packaging should be removed from the area or covered prior to use.

This product is also acceptable for use in areas where there is no food processing or open storage, provided that there is no possibility of any odour or fragrance entering a food processing or open storage area. Treated items used in food processing areas must be suitably cleaned and rinsed with potable water before being returned.
